

Seasons Greetings

2011 Christmas Chemical Specials

ThermoFisher
S C I E N T I F I C

The world leader in serving science

SEASONS GREETINGS FROM THERMO FISHER SCIENTIFIC

Spend \$450 on ANY chemicals from Ajax Finechem, Fisher Chemicals, LabServ Pronalys, Acros, TCI or Applichem and receive your choice of the following gifts*

Christmas Cooler Hamper

A great selection of treats packed in a quality cooler bag

- Whittings Christmas food cake
- Fowlers Vacola mince pies
- Anna's thins biscuits
- Peckish rice cracker thins
- Mayfair creamers
- Tasty Ceylon tea
- Duc d'O finest Belgium chocolates
- Pringles potato crisps
- Trutaste peanuts

OR

Two bottles of premium Australian wine from Barwang Estate

2009 Cabernet Sauvignon

Barwang proclaims 2009 as one of the finest quality vintages on record in the Hilltops region. There's brooding chocolate fruitcake, dense currants and blue fruits, all wrapped in graphite tannins and immediately looking like they belong in a far more expensive wine. A magical result for a very deserving long term label of distinction.

2011 Tumbarumba Chardonnay

Barwang Chardonnay from Tumbarumba contains an elegant prestige concentration of minerals, lemon pith, ruby grapefruit, stone fruits and a linear structure. Fantastic acidity and length. Outperforms most premiums in Open classes with regularity.

*please refer to conditions of offer on the back page

Thermo Fisher Scientific - Your Chemical Solutions Partner

Choose from our broad portfolio of brands and products; including...

Ultra Pure Inorganics

ACROS
ORGANICS

Acros Organics chemicals in action

Inorganic products with ultra low metal contaminants have many important applications in today's high technologies. Acros Organics offers a line of ultra pure inorganics with trace metal content less than 100 ppm to as low as 1 ppm. In order to meet the increasing market demand, we have recently expanded our offering by 50%.

- Catalysis
- Crystal Growth Technology
- Photovoltaic Materials
- Optical fibers
- Lasers

Organic Chemicals

TCI Catalogue

TCI provides you with the chemical compounds you require to further your discovery research and assist in your manufacturing process.

- Synthetic Organic Chemicals
- Functional Materials
- Biochemicals
- Electronics Information Materials
- Pharmaceutical Raw Materials
- Cosmetic Raw Materials

Request your copy of the TCI catalogue now via the Thermo Fisher Scientific request-section. www.thermofisher.com.au/request.aspx

Biochemicals for Biochemistry

AppliChem

AppliChem offers a wide range of biochemicals for biochemistry, cell biology, microbiology and molecular biology, as well as wide range of general chemicals including:

- Amino acids
- Deuterated Substances
- Dyes and Indicators
- Ionpairing Reagents
- Silylation Reagents
